### Skills

Specialising in Stop motion Animation and set design and creation. Experienced in Stop Motion Pro, Adobe Premiere and Photoshop. Previously worked with softwares such as Flash, Maya and briefly After FX. Developed skills on design and making sets for a stop motion environment. Reasonable skill and understanding of puppet making and the interaction needed with the set.

Personal Profile: I am a flexible and hardworking individual who aims high; I utilise good communication skills and work very hard to provide good work. I am an upbeat, enthusiast who works well in a team, yet am not afraid to take lead if necessary, combining resourcefulness listening skills and logical thinking to help find solution to problems.

---

---

Volunteering- I've just started to volunteer at the local interactive museum called @Bristol- specialising in the animation floor where I will help in the workshops.

Games concept design work- A colleague and I worked together to pitch a design idea for an iPhone app to push a certain product. We won the competition and are currently working on developing the idea further and finalising the design.

I also have a varied experience working in the bar and retail.
